- Enhanced Eirene Cremations and Spontivly web applications.
- Skilled in JavaScript, ReactJS, ReduxJS, and NextJS

PROJECTS

TattooDesignPro

LIVE

TattooDesignPro is an AI tool that turns tattoo ideas into detailed designs, catering to artists and individuals. It fosters creativity, allowing users to explore various styles and create unique, personalized tattoos.

EireneCremations

LIVE

Eirene Cremations is dedicated to transforming end-of-life planning in Canada, offering a compassionate, transparent, and dignified alternative to traditional funeral arrangements that honors life's beauty and meaning.

WordRocket

LIVE

WordRocket AI is a powerful tool for generating SEO-optimized content with a single click. Ideal for marketers, business owners, bloggers, and writers, it offers diverse templates at affordable prices, streamlining your content creation process.

Experiance

Front End Engineer

Eirene Cremations • Regina, Saskatchewan, Canada (Remote)

MAR 2023 - APR 2024

At Eirene Cremations, I focused on the front end, delivering features such as a deceased status checker and creating forms for listing deceased information. I also built internal tools to manage the entire system, integrated backend APIs & collaborated with the team to ensure a seamless user experience.

Front End Developer

Spontivly • St Petersburg, Florida, United States (Remote)

JUN 2022 - FEB 2023

At Spontivly, I developed and maintained web applications as a team member. I created a library content management system with user-friendly features and implemented a complex search filter for refining content. I also designed the UI/UX, fixed bugs, and deployed the application to production.
