- Worked with backend devs for smooth functionality data flow.

Experience

Front End Engineer

Eirene Cremations • Regina, Saskatchewan, Canada (Remote)   **MAR 2023 - APR 2024**

At Eirene Cremations, I focused on the front end, delivering features such as a deceased status checker and creating forms for listing deceased information. I also built internal tools to manage the entire system, integrated backend APIs & collaborated with the team to ensure a seamless user experience.

Front End Developer

Spontivly • St Petersburg, Florida, United States (Remote)   **JUN 2022 - FEB 2023**

At Spontivly, I developed and maintained web applications as a team member. I created a library content management system with user-friendly features and implemented a complex search filter for refining content. I also designed the UI/UX, fixed bugs, and deployed the application to production.
